DLG membership

As an independent body, DLG offers its members a forum for sharing knowledge and has been an important source of information and an innovation driver since it was established in 1885. Become a member of our network. We provide orientation, offer new perspectives and lend a voice to your important topics – with the aim of working together with you to shape the future of agriculture, agribusiness and the food sector.

The interests of the young generation are catered for by the Young DLG organisation which numbers several thousand members – young entrepreneurs and students from Germany and Europe.

DLG is an open network and the professional voice of agriculture, agribusiness and the food sector.

DLG advances technological and scientific progress in the areas of crop production, farm machinery and animal husbandry.

As an open network and the professional voice of agriculture, agribusiness and the food sector, we strive to increase professional knowledge, quality standards to ensure a broad-based transfer of technology and know-how, and to set and secure quality standards.

DLG Competence Centers for Agriculture and Food: Knowledge management for a successful future.

Knowledge and expertise. DLG's networks of experts develop solutions to the challenges facing agriculture, agribusiness and the food sector. Around 3,000 experts – farmers, academics, consultants and administration and policy specialists – work closely together on a volunteer basis. Around 120 bodies address issues such as agricultural production technology, management and governance, as well as quality assurance, technology and sensors in food industry.

DLG's two Competence Centers – Agriculture and Food – organise congresses, conferences and forums and are important platforms for professional dialogue and innovation. The DLG Academy gives its students the opportunity to gain key qualifications for the future. This offering is complemented by various publications such as DLG papers, DLG Expert Knowledge and numerous trend monitors. The DLG Academy offers its graduates opportunities to acquire key qualifications for a future career.

Fairs and exhibitions: Forums for progress.

Trade fairs and shows 'made by DLG' serve as forums for ideas, innovation and networking and are held in great esteem by international, national and regional exhibitors and visitors.

Leading fairs of international repute such as AGRITECHNICA and EuroTier and more than 30 shows in many countries provide campuses where information is shared on current trends and issues in the agricultural and food industries.

Global expertise in fairs and exhibitions

- Field equipment & crop production
- On-farm equipment & animal husbandry
- Energy
- Forestry
- Food & Beverages

The DLG Test Centers: Setting quality standards. Providing orientation.

DLG tests food, agricultural machinery and farm inputs to give consumers and users reliable information for making their purchase decisions. Our Test Centers are committed to an unbiased and independent assessment, applying state-of-the-art knowledge and test systems. As such they also set quality standards on an international scale.

Test Center Food: Awarding only the best

The DLG Test Center Food conducts tests on tens of thousands of products manufactured in Germany and abroad. The 'DLG Award Winner' label enjoys the highest trust among manufacturers and consumers.

Test Center Technology and Farm Inputs: Testing on behalf of farmers

Based in the town of Groß-Umstadt near Frankfurt, the DLG Test Center for Technology and Farm Inputs establishes the facts and figures on products to help users make sound purchase decisions. In more than 4,000 test reports, farmers can find clear guidance on farm machinery, compound feeds, silage additives, fertiliser lime as well as detergents, disinfection products and udder hygiene agents. The methods and test profiles reflect typical applications and arrive at unbiased and independent results. A fact that earns the Test Center worldwide acknowledgement.
